Commissioner of Public Health

Monroe County Department of Public Health COVID-19 Daily Case Update

Friday, August 27, 2021

Statement from Monroe County Executive Adam Bello and Commissioner of Public Health

Dr. Michael Mendoza: *As we report more than 200 new cases today, we are becoming increasingly concerned about the spread of COVID-19 in Monroe County. We are heading in the wrong direction and, as we prepare to begin the new school year, we urge you to continue taking the precautions we know will help prevent infection. This is how we will keep our schools fully open and our families safe:*

- **Get vaccinated** if you are eligible. Vaccinate your children if they are 12 years or older.
- **Wear a mask** in public settings, particularly when you are indoors and unable to maintain safe physical distance from others outside of your household.
- **Avoid indoor gatherings.** When gathering indoors with people outside of your household, try to keep the gathering small and wear masks as much as practical.
- **Stay home and get tested if you have symptoms** of COVID-19, or come into close contact with someone who has tested positive for COVID-19.
